LAING SELF STORAGE OPENS IN ENDWELL AND BINGHAMTON

Binghamton, NY – December 11, 2019 – The Lainger Group, a self storage management and development group based out of Conklin, NY is proud to announce they have opened self storage facilities in Endwell and Binghamton.

Laing Self Storage of Endwell is located at 105 Brink St, Endwell, behind the Town of Union Highway Department. It currently houses 100 indoor; temperature controlled self storage units and is scheduled for completion of another 200 units in late 2020. The 30,000 sq/ft facility offers a variety of unit sizes and every tenant has their own unique pin code for 24 hour access.

Laing Self Storage of Binghamton is slated to open in January 2020 and is located at 155 W. Service Road, Binghamton, across from Phil's Gift Shop. Similar to Laing Self Storage's other locations; the Binghamton location will offer temperature controlled self storage units with a variety to choose from and each tenant will have a unique pin code for 24 hour access.

For smaller storage options, Laing Self Storage of Binghamton will offer Co-Op storage. Our Co-Op storage option will be for customers who want to store onesies - twosies of content without renting larger units.

"We are excited about these two locations which will be rounded out by a third location, slated for construction in Spring of 2020," said Brian Laing, CEO of The Lainger Group.

Laing also added, "As a long time resident of Binghamton, we understand the need for Self Storage that wont flood and that is safe for the customers...we feel our triangular location approach will offer the residents of Binghamton the security they are looking for."
